

### Quality Policy

Iso Tech Engineering is a leading provider of precision machined components and specialist repair services. We shall strive to meet our customers' quality requirements and exceed their expectations in service and delivery in full on time, by implementing a quality management system based on the requirements of ISO9001 and in compliance with statutory and other requirements.

We are committed to continuous improvement principles and for this purpose shall set meaningful and measurable objectives and targets to continually monitor the performance of our quality management system.

Every member of our personnel has the responsibility to ensure that the intentions of this policy are understood, applied and maintained within their own work activity.

Iso Tech Engineering management has the ultimate responsibility to implement this quality policy and shall provide all personnel with adequate information and training to enable all tasks to be undertaken with a consistent standard of quality.
